"WILL TAMMANY EXPLAIN ITSELF?"

—Bryan's Commoner.

DEFEATED CANDIDATE DEMANDS TO KNOW REASON FOR FLUNK IN NEW YORK CITY.

Lincoln, Neb., Nov. 20.—Declaring that Tammany has either become impotent or did not work for the success of the democratic ticket in the late campaign, W. J. Bryan, in the forthcoming issue of his Commoner, says there must be something radically wrong in the organization, and calls for an explanation from the men who control the big political organization of New York City. The Commoner article, in part is:

"If Tammany did the best it could and could not carry the city of

New York for the democratic ticket, several questions arise:

"1. Was it the fault of the candidate?"

"2. Was it the fault of the platform?"

"3. Was it the fault of Tammany?"

"4. Is there a New York Democracy outside of Tammany?"

"If Tammany did its best then either Tammany could not bring Tammany to support the ticket, or there is a democracy outside of Tammany that thwarts Tammany's efforts when Tammany does its best. And if there is a democracy outside of Tammany that must be reckoned with, is it not time for that democracy to organize itself and make itself known, so that the national democracy will have something to co-operate with? It will be interesting to democrats outside to know how the situation is to be remedied.

"Will Tammany explain?"

"HEALTH SECRET IS CARE OF STOMACH" —ROCKEFELLER.

New York, Nov. 20.—"When I was a young man I used to work day and night, but I never forgot that I had a stomach. You can work long hours if you are careful about what you eat. I was always careful about what I put into my stomach and to-day I have cause to be very grateful for it. I never felt in better health than today, as a result of rigidly adhering to a policy of a careful diet when I was a boy. I advise any one who wants to keep his health to do the same. Then when you young men get to be 70 years old you will be able to keep up your work. "I never felt better in my life than I do now. For the last twenty years I have kept out of doors as much as possible, and to that practice, coupled with a careful diet, I attribute my excellent health. I advise you, young man, to take good care of your stomach."

That was the explanation given today by John D. Rockefeller, the richest man in the world, for his mental and physical vigor after a hard business life of more than forty years. He had just stepped from the witness stand at the noon recess at the oil inquiry, when he was asked if he was not tired by his ordeal. He said that he was not tired, and he did not look as if he were. He believed that his care of his stomach during his whole youth, and, in fact, during his whole life, accounted for his ability to go through such an examination without tiring. He made no comment on the stories that have been repeatedly published to the effect that his stomach was so nearly ruined that he had to live on crackers and milk, nor did any one ask him about them.

The fact that the examination is not worrying him was proved very clearly when he walked to the custom house with his lawyers for the morning session. To the surprise of many of those who stared at him, he whistled like a schoolboy.

Ada is to have a sewer pipe and pottery manufacture.

Ada's asphalt is pronounced as fine as any in the southwest.

Amusement in moderation is not out of place. Some diversion is occasionally necessary to drive worries away.

Hon. W. J. Bryan will carry to Mexico with him, the heartfelt wishes of millions of his countrymen, that he may be restored to his usual good health and have a pleasant sojourn.

Ada still forges to the front as a cotton market. It pays the highest prices the buyers can afford, and the business houses carry bargains for the people and especially those who advertise.

The democracy of Oklahoma will get together and its record of achievement before the expiration of its present incumbency, will be better understood and had time to more thoroughly materialize.

The practical program of the county judge and the interior department looking to the early ownership of a great many farms in Pontotoc county by the actual farmer guarantees prosperity throughout the county another year.

The material development of city or county is of first consideration. Good farms, good roads, good school houses, good churches, comfortable and attractive homes—these are the inducements to the prospector either as homeseeker or for investment. Pontotoc county and Ada are coming to the front along these lines.

Ada is attracting the attention of the prospectors who are coming to Oklahoma in large numbers. Many of them make it a point to include Ada in their itinerary, and when they arrive, the general signs of public improvements, the voting of bonds for further work along this line, and evidences of prosperity, favorably impress them.

When Mayor Dick, of Ardmore, told the council the other night that he stood for the issuance of bonds for any sensible purpose that would build up the city, the applause that came from the audience convinced timid aldermen that it was time to heed the popular demand to do something.—Shawnee Herald.

It is the same demand anywhere in this new country, in order to get necessary improvements and public conveniences. Ada has such a mayor and council, and when its work is completed, they will have something substantial to show for their labors.

ABOUT ADVERTISING—NO. 7

The Cannon That Modernized Japan

By Herbert Kaufman.

Business is no longer a man to man contact, in which the merchant and the patron establish a *personal* bond, any more than battle is a hand-to-hand grapple, where bone and muscle and sinew decide the outcome. *Trade* as well as *war* has changed in its aspect—*both are now fought at long range.*

Just as a present day army of heroes would have no opportunity to display the *individual* valor of its members, just so a merchant who counts upon his personal acquaintanceship for success is a relic of the past—a *business dodo.*

Japan changed her policy of exclusion to foreigners after a fleet of warships battered down the Satsuma fortifications. The Samurai, who had hitherto considered their blades and bows good enough, discovered that one cannon was mightier than all the swords in creation *if they could not get near enough to use them.* Japan profited by the lesson. She did not wait until *further* ramparts were battered to pieces, but was satisfied with her *one* experience and proceeded to modernize her methods.

The merchant who doesn't advertise is pretty much in the same position as that in which Japan stood when her eyes were opened to the fact that *times had changed.* The long range publicity of a competitor will as surely destroy your business as the cannon of the foreigners crumbled the walls of Satsuma. Unless you take the lesson to heart, unless you *realize* the importance of advertising, not only as the means of *extending* your business but for *defending* it as well, you must be prepared to face the consequences of a folly as great as that of a duelist who expects to survive in a contest in which his *adversary* bears a *sword twice the length of his own.*

Don't think that it's *too late* to begin because there are so many stores which have had the advantage of years of cumulative advertising. The city is growing. It will grow even more next year. It needs *increased trading facilities* just as it's hungry for new neighborhoods.

But it will never again support neighborhood stores. Newspaper advertising has eliminated the strength of being *locally prominent*, and five cent street car fares have cut out the advantage of being "*around the corner.*" A store five miles away can reach out through the columns of the daily newspaper and draw your next door neighbor to its aisles, while you sit by and see the people on your own block enticed away without your being able to retaliate or supply *new* customers to take their place.

It is not a question of your ability to *stand the cost* of advertising but of being able to *survive without it.* The thing you have to consider is not only an *extension* of your business but holding *what you already have.*

Advertising is an *investment*, the *cost* of which is in the same proportion to its *returns* as *seeds* are to the *harvest.* And it is just as preposterous for you to consider publicity as an expense as it would be for a farmer to hesitate over purchasing a *fertilizer* if he discovered that he could *profitably increase* his crops by *employing* it.

WOULD GO TO JAIL

So Says John Mitchell in American Federation Meeting.

Denver, Nov. 19.—The entire session of the American Federation of Labor convention today was given over to consideration of the report

of the committee on the president's report. Two sections caused a prolonged debate and a vote was reached on only one—that referring to "litigation harassing labor." The report of the committee recommending that injunctions be disregarded, was defeated on roll call; 11,272 to 3,576, and a modification of the report, along the line of Gompers' report was adopted.

The rest of the session was taken up in discussing the section of the report referring to the political action of the federation leaders.

In this section the committee criticized Daniel J. Keefe for not acting with the rest of the executive council.

John Mitchell at the afternoon session, in discussing an amendment to the committee report, said in part:

"Within a few days the court will decide whether our president, secretary and myself shall go to jail. I do not want to go to jail. But I shall accept that judgment and I shall pay no fine."

This declaration brought cheers from the delegates.

THE MAN WHO CAUSED OFFICER TO SEARCH HOME

WILLIAM JOHNSON KILLS OSCAR JONES ON TECUMSEH STREET.

DEPUTY FINDS LIQUOR THERE

JOHNSON'S WIFE TECHNICALLY ARRESTED—HUSBAND WAS AFTER REVENGE.

Shawnee, Okla., Nov. 20.—Enraged because his house had been searched for liquor at the instance of Oscar ("Red") Jones, during his absence, William Johnson, at 5 o'clock this afternoon, in front of the Nichols furniture store in Tecumseh, shot and killed Jones and then surrendered to the authorities. Both men reside in Tecumseh.

While Johnson was in the country hunting this afternoon Jones went to the former's home and demanded that Mrs. Johnson give him some liquor. Upon her refusal Jones went to the county court and demanded that the house be searched. Deputy Sheriff King, armed with a search warrant, went to the Johnson residence and confiscated 12 gallons of whiskey and technically placed Mrs. Johnson under arrest.

When Johnson returned and learned what had happened he started in search of Jones, whom he found standing in front of the furniture store.

"There comes Bill Johnson; I guess he's after me," said Jones to a companion, and before he could escape Johnson opened fire. Jones fell, wounded in the left jaw by the first shot. A second smashed a plate glass window and a third entered the side of Jones. He expired in about 30 minutes.

Charges of burglary and bootlegging were pending against Jones in the country court.

GOVERNOR'S PROCLAMATION.

Will Today Declare That Agency Measure No Longer a Statute.

Guthrie, Okla., Nov. 20.—Developments are looked for tomorrow in the state agency problem. It is expected that Secretary Linn of the State Election Board will certify the returns on the five state questions, if necessary, without the two counties lacking as the vote could not effect the result.

Governor Haskell will directly issue his proclamation declaring the dispensaries repealed and Attorneys Devereux and Asp, within 20 minutes after the proclamation is issued, will file suit in the district court seeking on behalf of the Alexander Drug Company of Oklahoma City, to prevent the elimination of the agency, on the ground that the election had no result, because an emergency measure could not be submitted by the referendum.

ATTEMPTED BRIBERY CHARGED.

Is Connected With Oklahoma City School Board.

Oklahoma City, Nov. 19.—Warrants were issued last night for the arrest of J. Harry Randall, architect, and E. M. Deam, sign painter, both of Oklahoma City, charging them with attempted bribery in connection with the letting of the architectural award for the \$300,000 High School building. An attempt to serve warrants last night failed. Both men had secreted themselves, not wishing to take the chances of spending the night in jail for failure to make bond at that hour of the evening.

Gov. Haskell Makes Address.

Guthrie, Ok., Nov. 19.—The county commissioners of Oklahoma were in session here today and were addressed by Gov. Haskell relative to needed county legislation. The plan of abolishing township government by legislative enactment was found to be contrary to the constitution, and in place of such a measure the commissioners will ask the legislature to give them more powers where the township government is found unsatisfactory. The commissioners from old Indian Territory counties favored the abolishment of township government, but it was opposed by old Oklahoma counties.

Indians Make Good Showing.

Chillico, Ok., Nov. 19.—The Indian students at the government school here are proving excellent farmers under the supervision of the faculty heads. The school has 2,000 tons of hay as its share of the land leased for cutting, 3,000 bales of which are stored in the school barn. The head gardener reports 1,140 bushels of sweet potatoes dug recently from ten acres of land.

UNEXPECTED CLOSE

Made in John D. Rockefeller's Testimony.

New York, Nov. 19.—With the story of the first score of years of the industrial development of the Standard Oil Company, the testimony of John D. Rockefeller, president of the oil combine, on direct examination in the federal suit to dissolve the Standard Oil Company, was brought to an unexpected close this afternoon. The head of the Standard told today of the processes and cause of the company's growth up to the trust agreement of 1882, and after identifying the parties to the agreement, counsel for the defense announced that Mr. Rockefeller had concluded his direct testimony and requested an adjournment until tomorrow.

Friday will find Mr. Rockefeller on the witness stand under the sharp fire of cross-examination by Frank B. Kellogg, special assistant attorney general, prosecuting the case for the government. This will be generally confined to the period from 1862 to 1882 except when the testimony has direct bearing on the developments in the company's affairs in its later period. Counsel for the Standard let it be known today that the history of the company from the trust agreement of 1882 would be told on the witness stand by John D. Archbold, vice president, who is conversant with the combine's developments.

MOST IMPORTANT CASE

Is What Judge H. M. Furman Thinks of Decision.

Guthrie, Ok., Nov. 19.—The court of general appeals this afternoon handed down the most important decision in the history of the court, and effects the courts in old Indian Territory.

It was in the case of the state ex rel Bruner Sims vs. Judge John Caruthers of the Ninth district in which Sims sought a writ of mandamus to compel Caruthers to dismiss his case because he had not been granted a speedy trial, three terms of court having elapsed and no trial. The court denied the writ on the grounds that conditions in Indian Territory do not justify the claim that the case was prolonged.

Presiding Judge Furman says it is the most important case passed on by the court as at least 80 per cent of the cases in Indian Territory are effected.

The important point held by the courts that the laws of Arkansas govern the procedure in all cases pending before state hood.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

W. Y. Littlefield, living on W. 16th street, Ada, Okla., says: "I procured Doan's Kidney Pills at G. M. Ramsey's drug store, and found most prompt and genuine relief from an aching through the small of my back, that had caused me much misery for a long time. Doan's Kidney Pills not only relieved the distressing symptoms of kidney disorder, and corrected that too frequent action of the kidney secretions, but also caused the burning sensation that had accompanied the passages of the secretions to completely disappear. I am only too glad to recommend Doan's Kidney Pills to other sufferers of kidney complaint as they proved of more benefit to me than any remedy I had previously used."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

TOM JOHNSON FAILS

HE IS NOT DESPONDENT BUT STILL HAS THE FIGHTING SPIRIT.

WILL START OVER AGAIN

He Gives Up Mansion and Motor Cars and Take Cottage and Ride on Street Cars.

Tom Johnson head to fellow Events in Career of Tom Johnson. Born at Georgetown, Ky., July 18, 1854.

Educated in Indiana, where he spent his boyhood. Clerk in street railway office, Louisville, Ky., 1869-75.

Bought street railway in Indianapolis, later acquiring traction interests in Cleveland, Detroit and Brooklyn.

Member of congress from 1891 to 1895 (democrat.) Prominent advocate of single-tax theories of Henry George.

First elected Mayor of Cleveland April 1, 1901.

Cleveland, Ohio, Nov. 20.—Tom L. Johnson, who for years has been credited with the possession of a very large fortune, today announced that he had lost everything and would be compelled to give up his beautiful home on Euclid avenue and move into smaller and less expensive quarters. The Mayor also stated that he would give up his automobiles and other luxuries because he could no longer afford to keep them.

His fortune was wrecked, the Mayor declared, by his devotion to the affairs of the estate of his dead brother, Albert, who was heavily interested in the traction properties in the East.

After Albert's death a question was put up to him whether he should resign his office as Mayor and take up the management of Albert's estate.

Fought for Ideals. "I decided that I would not. I had entered the fight in this city with certain ideals before me. I

wanted to fight privilege and special interest, and I had already decided to give up working for dollars. So I concluded to stay right here and do what I could to help my brother's children at long distance.

"Why did I choose the course I did? I'll tell you. It's not because I'm a philanthropist, for I'm not. I acted from a purely selfish motive. I wanted happiness and nothing else, when I closed up my brother's affairs and took up civic activity.

Enjoyed Civic Career. "And I've been happy, too. The last seven years have been the best of my life, leaving out of consideration the loss of my brother.

Going Back to Cottage. "I am going to be happy yet, too. We may have to go back to a cottage, but that's the way we started, and we can look upon life just as joyfully there as we did in the big house on Euclid avenue. They tell me my enemies are planning to bring financial trouble on me. I've been expecting it. There's one mistake I have not made—that of failing to foresee the efforts of those who would like to destroy me if the opportunity presented.

"My enemies are capable of doing that. One may expect nothing else from special privileges. However, I realize that any other set of men in the same circumstances would act the same.

Plenty of "Fight" Left. "Let them do what they may. Let them make any sort of attack upon me that they choose, with whatever success, and they will find me with a thousand fights left in me.

"I'll never give up. I'm well and strong and confident, and they will always find me at the front.

"If I had been a coward, if I had run away from this fight for the people of Cleveland—I could have saved my fortune and built it up. But I had chosen my course, and I did not have any mind for altering it.

Money Does Not Tempt Him. "The pursuit of more dollars does not interest me. I suppose I could go down in Wall Street now and make some more. I've bought and sold with E. H. Harriman and I suppose I could go and do it again,

but I am not going to do anything of the sort.

"I don't want you to misunderstand what I have been working for as Mayor. I have not been laboring with the expectation of being rewarded by the gratitude of the people. One can not count on that. It is the pleasure that in doing work that has kept me in the fight.

"I have never made a single penny out of the street railways since I became Mayor. Nobody else has worked as hard as I, and I have not drawn a cent of pay from the Municipal Traction Company as treasurer. I don't propose to ask for a cent for my work in helping the receivers.

"I have never spent money in politics. In no campaign have I paid more than my assessment, \$600 on the \$6,000 salary of Mayor. Sometimes I have not paid that much in cash, when the committee has allowed me a certain amount for the use of my tents. We have never been in debt at the end of a campaigning but once. When I gave up active business affairs, I did it because the requirements of my work did not square with my principles.

"I suppose I could have taken up a life of ease when I retired had I wished. I was welcome at the clubs, fast horses, yachts and other allurements were open to me. For me, though, happiness lay in another direction.

"My only recreation has been automobiling. I'd like to keep one of my automobiles, but I'm afraid I can't.

"Back in my prosperous days, I gave the home on Euclid avenue to my wife. It is hers yet, and she will own it still even though we can't afford to live in it."

Mr. Johnson continued: "I don't feel discouraged. I'm a free man and that means a great deal to me, and I have my friends, too.

"Don't you suppose it will be worth something to me to have my friends say that I entered the Mayor's office rich and left it poor. The realization of what all that means is worth more to me than the money I've lost.

"I'm going to keep on just as I've started. I'm going to be a candidate for Mayor when this term is over."

The Municipal Traction Company, of which Mayor Johnson was treasurer, passed into the hands of receivers in the federal court several days ago. Following this came the transfer to two local banks of the deposit savings and trust company, of which the Mayor was president. It is said this action was precipitated by the threats of Mr. Johnson's individual creditors to file suits to obtain payment on notes endorsed by the Mayor.

It is said Mr. Johnson has recently lost approximately \$400,000 in connection with the interests at Loraine, Ohio.

Rexall
"93" HAIR TONIC

Our faith in the superior remedial qualities of Rexall "93" Hair Tonic is so strong that we promise to return your money—without question or quibble—if it does not do what we claim it will.

Because it contains Resorcin, Beta Naphthol, Pilocarpin, Borax, Glycerin and Alcohol in perfect combination, Rexall "93" Hair Tonic provides the softening, cleansing, antiseptic, germicidal, stimulating and nourishing properties, so desirable and necessary for the successful treatment of scalp and hair troubles.

If used according to directions for a reasonable length of time, we are absolutely positive that it will thoroughly cleanse the scalp and hair, relieve irritation, eradicate dandruff, stimulate the hair follicles and papilla, revitalize and nourish the hair roots, stop falling hair, prevent baldness, promote hair growth and make the hair naturally soft and silky.

You must realize that we would not dare back up our claims with such a liberal offer unless we were positive that we can substantiate our statements in every particular, and the most skeptical person should at least be willing to try Rexall "93" Hair Tonic at our risk.

BIG TOBACCO DEAL.

It Involves 90,000,000 Pounds and \$14,000,000.

Louisville, Nov. 19.—The big deal between the American Tobacco company and the Burley Tobacco society for the 1906 and part of the 1907 crops of tobacco, which has been hanging fire for several weeks, was closed here late today. The price agreed on in the transaction, which was said to be the largest ever put through, is an average of 20 1-2c for

the 1906 crop and 17c for the 1907 crop per pound.

The deal involves 90,000,000 pounds of tobacco held in the pool by the Burley tobacco society and an outlay of something like fourteen million dollars on the part of the American Tobacco company, practically all of this money being placed in circulation at once in central Kentucky.

"WILL TAMMANY EXPLAIN ITSELF?"

—Bryan's Commoner.

DEFEATED CANDIDATE DEMANDS TO KNOW REASON FOR FLUNK IN NEW YORK CITY.

Lincoln Nel Nov 20—Declaring that Tammany has either become impotent or did not work for the success of the democratic ticket in the late campaign W J Bryan in the forthcoming issue of his Commoner says there must be something radically wrong in the organization and calls for an explanation from the men who control the big political organization of New York City. The Commoner article in part is

If Tammany did the best it could and could not carry the city of

New York for the democratic ticket several questions arise

1 Was it the fault of the candidate?
2 Was it the fault of the platform?
3 Was it the fault of Tammany?

4 Is there a New York Democracy outside of Tammany?

If Tammany did its best then either Tammany could not bring Tammany to support the ticket or there is a democracy outside of Tammany that thwarts Tammany's efforts when Tammany does its best. And if there is a democracy outside of Tammany that must be reckoned with is it not time for that democracy to organize itself and make itself known so that the national democracy will have something to co-operate with? It will be interesting to democrats outside to know how the situation is to be remedied.

Will Tammany explain?

"HEALTH SECRET IS CARE OF STOMACH" —ROCKEFELLER.

New York Nov 20—When I was a young man I used to work day and night but I never forgot that I had a stomach. You can work long hours if you are careful about what you eat. I was always careful about what I put into my stomach and to day I have cause to be very grateful for it. I never felt in better health than today as a result of rigidly adhering to a policy of a careful diet when I was a boy. I advise any one who wants to keep his health to do the same. Then when you young men get to be 70 years old you will be able to keep up your work. I never felt better in my life than I do now. For the last twenty years I have kept out of doors as much as possible and to that practice coupled with a careful diet I attribute my excellent health. I advise you young man to take good care of your stomach.

That was the explanation given today by John D Rockefeller the richest man in the world for his mental and physical vigor after a hard business life of more than forty years. He had just stepped from the witness stand at the noon recess at the oil inquiry when he was asked if he was not tired by his ordeal. He said that he was not tired and he did not look as if he were. He believed that his care of his stomach during his whole youth and in fact during his whole life accounted for his ability to go through such an examination without tiring. He made no comment on the stories that have been repeatedly published to the effect that his stomach was so nearly ruined that he had to live on crackers and milk nor did any one ask him about them. The fact that the examination is not worrying him was proved very clearly when he walked to the custom house with his lawyers for the morning session. To the surprise of many of those who stared at him he whistled like a schoolboy.

Ada is to have a sewer pipe and pottery manufacture.

Ada's asphalt is pronounced as fine as any in the southwest.

Amusement in moderation is not out of place. Some diversion is occasionally necessary to drive worries away.

Hon. W. J. Bryan will carry to Mexico with him, the heartfelt wishes of millions of his countrymen, that he may be restored to his usual good health and have a pleasant sojourn.

Ada still forges to the front as a cotton market. It pays the highest prices the buyers can afford, and the business houses carry bargains for the people and especially those who advertise.

The democracy of Oklahoma will get together and its record of achievement before the expiration of its present incumbency, will be better understood and had time to more thoroughly materialize.

The practical program of the county judge and the interior department looking to the early ownership of a great many farms in Pontotoc county by the actual farmer guarantees prosperity throughout the county another year.

The material development of city or county is of first consideration. Good farms, good roads, good school houses, good churches, comfortable and attractive homes—these are the inducements to the prospector either as homeseeker or for investment. Pontotoc county and Ada are coming to the front along these lines.

Ada is attracting the attention of the prospectors who are coming to Oklahoma in large numbers. Many of them make it a point to include Ada in their itinerary, and when they arrive, the general signs of public improvements, the voting of bonds for further work along this line, and evidences of prosperity, favorably impresses them.

When Mayor Dick, of Ardmore, told the council the other night that he stood for the issuance of bonds for any sensible purpose that would build up the city, the applause that came from the audience convinced timid aldermen that it was time to heed the popular demand to do something.—Shawnee Herald

It is the same demand anywhere in this new country, in order to get necessary improvements and public conveniences. Ada has such a mayor and council, and when its work is completed, they will have something substantial to show for their labors.

ABOUT ADVERTISING—NO. 7

The Cannon That Modernized Japan

By Herbert Kaufman.

Business is no longer a man to man contact, in which the merchant and the patron establish a *personal* bond, any more than battle is a hand-to-hand grapple, where bone and muscle and sinew decide the outcome. *Trade* as well as *war* has changed in its aspect—both are now fought at long range.

Just as a present day army of heroes would have no opportunity to display the *individual* valor of its members, just so a merchant who counts upon his personal acquaintanceship for success is a relic of the past—a *business dodo*.

Japan changed her policy of exclusion to foreigners after a fleet of warships battered down the Satsuma fortifications. The Samurai, who had hitherto considered their blades and bows good enough, discovered that one cannon was mightier than all the swords in creation if they could not get near enough to use them. Japan profited by the lesson. She did not wait until further ramparts were battered to pieces, but was satisfied with her *one* experience and proceeded to modernize her methods.

The merchant who doesn't advertise is pretty much in the same position as that in which Japan stood when her eyes were opened to the fact that *times had changed*. The long range publicity of a competitor will as surely destroy your business as the cannon of the foreigners crumbled the walls of Satsuma. Unless you take the lesson to heart, unless you *realize* the importance of advertising, not only as the means of *extending* your business but for *defending* it as well, you must be prepared to face the consequences of a folly as great as that of a duelist who expects to survive in a contest in which his *adversary* bears a sword twice the length of his own.

Don't think that it's *too late* to begin because there are so many stores which have had the advantage of years of cumulative advertising. The city is growing. It will grow even more next year. It needs *increased trading facilities* just as it's hungry for new neighborhoods.

But it will never again support neighborhood stores. Newspaper advertising has eliminated the strength of being *locally prominent*, and five cent street car fares have cut out the advantage of being "*around the corner*." A store five miles away can reach out through the columns of the daily newspaper and draw your next door neighbor to its aisles, while you sit by and see the people on your own block enticed away without your being able to retaliate or supply *new* customers to take their place.

It is not a question of your ability to *stand the cost* of advertising but of being able to *survive without it*. The thing you have to consider is not only an *extension* of your business but holding *what you already have*.

Advertising is an *investment*, the cost of which is in the same proportion to its *returns* as seeds are to the *harvest*. And it is just as preposterous for you to consider publicity as an expense as it would be for a farmer to hesitate over purchasing a *fertilizer* if he discovered that he could *profitably increase* his crops by *employing* it.

WOULD GO TO JAIL

So Says John Mitchell in American Federation Meeting.

Denver, Nov. 19.—The entire session of the American Federation of Labor convention today was given over to consideration of the report

of the committee on the president's report. Two sections caused a prolonged debate and a vote was reached on only one—that referring to "litigation harassing labor." The report of the committee recommending that injunctions be disregarded, was defeated on roll call; 11,272 to 3,576, and a modification of the report, along the line of Gompers' report was adopted.

The rest of the session was taken up in discussing the section of the report referring to the political action of the federation leaders.

In this section the committee criticized Daniel J. Keefe for not acting with the rest of the executive council.

John Mitchell at the afternoon session, in discussing an amendment to the committee report, said in part: "Within a few days the court will decide whether our president, secretary and myself shall go to jail. I do not want to go to jail. But I shall accept that judgment and I shall pay no fine."

This declaration brought cheers from the delegates.

DEPUTY FINDS LIQUOR THERE

JOHNSON'S WIFE TECHNICALLY ARRESTED—HUSBAND WAS AFTER REVENGE.

Shawnee, Okla., Nov. 20.—Enraged because his house had been searched for liquor at the instance of Oscar ("Red") Jones, during his absence, William Johnson, at 5 o'clock this afternoon, in front of the Nichols furniture store in Tecumseh, shot and killed Jones and then surrendered to the authorities. Both men reside in Tecumseh.

While Johnson was in the country hunting this afternoon Jones went to the former's home and demanded that Mrs. Johnson give him some liquor. Upon her refusal Jones went to the county court and demanded that the house be searched. Deputy Sheriff King, armed with a search warrant, went to the Johnson residence and confiscated 12 gallons of whiskey and technically placed Mrs. Johnson under arrest.

When Johnson returned and learned what had happened he started in search of Jones, whom he found standing in front of the furniture store.

"There comes Bill Johnson; I guess he's after me," said Jones to a companion, and before he could escape Johnson opened fire. Jones fell, wounded in the left jaw by the first shot. A second smashed a plate glass window and a third entered the side of Jones. He expired in about 30 minutes.

Charges of burglary and bootlegging were pending against Jones in the country court.

GOVERNOR'S PROCLAMATION.

Will Today Declare That Agency Measure No Longer a Statute.

Guthrie, Okla., Nov. 20.—Developments are looked for tomorrow in the state agency problem. It is expected that Secretary Linn of the State Election Board will certify the returns on the five state questions, if necessary without the two counties lacking as the vote could not effect the result.

Governor Haskell will directly issue his proclamation declaring the dispensaries repealed and Attorneys Devereux and Asp. within 20 minutes after the proclamation is issued, will file suit in the district court seeking on behalf of the Alexander Drug Company of Oklahoma City, to prevent the elimination of the agency, on the ground that the election had no result, because an emergency measure could not be submitted by the referendum.

SINGULAR SUDDEN DEATHS.
The Three Happened in Oklahoma in One Day.
Guthrie, Ok., Nov. 19.—While rounding up cattle near Muldrow, the horses ridden by Tol Blackard and Arthur Sagely ran into a barbed wire, throwing both animals over backward, breaking Blackard's neck, killing him instantly and critically injuring Sagely.
By using a cotton stalk to discharge the weapon, L. P. Prock, an aged cotton grower living near Hollis, killed himself in his cotton field yesterday. Prock put the butt of the gun on the ground and placed his head over the barrel.
Victor Huffman, aged 17, was found dead in his bed at Norman yesterday, a victim of heart failure.

ATTEMPTED BRIBERY CHARGED.
Is Connected With Oklahoma City School Board.
Oklahoma City, Nov. 19.—Warrants were issued last night for the arrest of J. Harry Randall, architect, and E. M. Deam, sign painter, both of Oklahoma City, charging them with attempted bribery in connection with the letting of the architectural award for the \$300,000 High School building. An attempt to serve warrants last night failed. Both men had secreted themselves, not wishing to take the chances of spending the night in jail for failure to make bond at that hour of the evening.

Gov. Haskell Makes Address.
Guthrie, Ok., Nov. 19.—The county commissioners of Oklahoma were in session here today and were addressed by Gov. Haskell relative to needed county legislation. The plan of abolishing township government by legislative enactment was found to be contrary to the constitution, and in place of such a measure the commissioners will ask the legislature to give them more powers where the township government is found unsatisfactory. The commissioners from old Indian Territory counties favored the abolishment of township government, but it was opposed by old Oklahoma counties.

Indians Make Good Showing.
Chillicothe, Ok., Nov. 19.—The Indian students at the government school here are proving excellent farmers under the supervision of the faculty heads. The school has 2,000 tons of hay as its share of the land leased for cutting, 3,000 bales of which are stored in the school barn. The head gardener reports 1,140 bushels of sweet potatoes dug recently from ten acres of land.

UNEXPECTED CLOSE
Made in John D. Rockefeller's Testimony.
New York, Nov. 19.—With the story of the first score of years of the industrial development of the Standard Oil Company, the testimony of John D. Rockefeller, president of the oil combine, on direct examination in the federal suit to dissolve the Standard Oil Company, was brought to an unexpected close this afternoon. The head of the Standard told today of the processes and cause of the company's growth up to the trust agreement of 1882, and after identifying the parties to the agreement, counsel for the defense announced that Mr. Rockefeller had concluded his direct testimony and requested an adjournment until tomorrow. Friday will find Mr. Rockefeller on the witness stand under the sharp fire of cross-examination by Frank B. Kellogg, special assistant attorney general, prosecuting the case for the government. This will be generally confined to the period from 1862 to 1882 except when the testimony has direct bearing on the developments in the company's affairs in its later period. Counsel for the Standard let it be known today that the history of the company from the trust agreement of 1882 would be told on the witness stand by John D. Archbold, vice president, who is conversant with the combine's developments.

MOST IMPORTANT CASE
Is What Judge H. M. Furman Thinks of Decision.
Guthrie, Ok., Nov. 19.—The court of general appeals this afternoon handed down the most important decision in the history of the court, and effects the courts in old Indian Territory.
It was in the case of the state ex rel Bruner Shins vs. Judge John Caruthers of the Ninth district in which Sims sought a writ of mandamus to compel Caruthers to dismiss his case because he had not been granted a speedy trial, three terms of court having elapsed and no trial. The court denied the writ on the grounds that conditions in Indian Territory do not justify the claim that the case was prolonged. Presiding Judge Furman says it is the most important case passed on by the court as at least 80 per cent of the cases in Indian Territory are effected.
The important point held by the courts that the laws of Arkansas govern the procedure in all cases pending before state hood.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

W. Y. Littlefield, living on W. 16th street, Ada, Okla., says: "I procured Doan's Kidney Pills at G. M. Ramsey's drug store, and found most prompt and genuine relief from an aching through the small of my back, that had caused me much misery for a long time. Doan's Kidney Pills not only relieved the distressing symptoms of kidney disorder, and corrected that too frequent action of the kidney secretions, but also caused the burning sensation that had accompanied the passages of the secretions to completely disappear. I am only too glad to recommend Doan's Kidney Pills to other sufferers of kidney complaint as they proved of more benefit to me than any remedy I had previously used."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

TOM JOHNSON FAILS

HE IS NOT DESPONDENT BUT STILL HAS THE FIGHTING SPIRIT.

WILL START OVER AGAIN

He Gives Up Mansion and Motor Cars and Takes Cottage and Ride on Street Cars.

Tom Johnson head to follow Events in Career of Tom Johnson. Born at Georgetown, Ky., July 18, 1854.

Educated in Indiana, where he spent his boyhood.

Clerk in street railway office, Louisville, Ky., 1869-75.

Bought street railway in Indianapolis, later acquiring traction interests in Cleveland, Detroit and Brooklyn.

Member of congress from 1891 to 1895 (democrat).

Prominent advocate of single-tax theories of Henry George.

First elected Mayor of Cleveland April 1, 1901.

Cleveland, Ohio, Nov. 20.—Tom L. Johnson, who for years has been credited with the possession of a very large fortune, today announced that he had lost everything and would be compelled to give up his beautiful home on Euclid avenue and move into smaller and less expensive quarters. The Mayor also stated that he would give up his automobiles and other luxuries because he could no longer afford to keep them.

His fortune was wrecked, the Mayor declared, by his devotion to the affairs of the state of his dead brother, Albert, who was heavily interested in the traction properties in the East.

After Albert's death a question was put up to him whether he should resign his office as Mayor and take up the management of Albert's estate.

Fought for Ideals. "I decided that I would not. I had entered the fight in this city with certain ideals before me. I

wanted to fight privilege and special interest, and I had already decided to give up working for dollars. So I concluded to stay right here and do what I could to help my brother's children at long distance.

"Why did I choose the course I did? I'll tell you. It's not because I'm a philanthropist, for I'm not. I acted from a purely selfish motive. I wanted happiness, and nothing else, when I closed up my brother's affairs and took up civic activity.

Enjoyed Civic Career.

"And I've been happy, too. The last seven years have been the best of my life, leaving out of consideration the loss of my brother.

Going Back to Cottage.

"I am going to be happy yet, too. I may have to go back to a cottage, but that's the way we started, and we can look upon life just as joyfully there as we did in the big house on Euclid avenue. They tell me my enemies are planning to bring financial trouble on me. I've been expecting it. There's one mistake I have not made—that of failing to foresee the efforts of those who would like to destroy me if the opportunity presented.

"My enemies are capable of doing that. One may expect nothing else from special privileges. However, I realize that any other set of men in the same circumstances would act the same.

Plenty of "Fight" Left.

"Let them do what they may. Let them make any sort of attack upon me that they choose, with whatever success, and they will find me with a thousand fights left in me.

"I'll never give up. I'm well and strong and confident, and they will always find me at the front.

"If I had been a coward, if I had run away from this fight for the people of Cleveland—I could have saved my fortune and built it up. But I had chosen my course, and I did not have any mind for altering it.

Money Does Not Tempt Him.

"The pursuit of more dollars does not interest me. I suppose I could go down in Wall Street now and make some more. I've bought and sold with E. H. Harriman and I suppose I could go and do it again.

but I am not going to do anything of the sort.

"I don't want you to misunderstand what I have been working for as Mayor. I have not been laboring with the expectation of being rewarded by the gratitude of the people. One can not count on that. It is the pleasure that in doing work that has kept me in the fight.

"I have never made a single penny out of the street railways since I became Mayor. Nobody else has worked as hard as I, and I have not drawn a cent of pay from the Municipal Traction Company as treasurer. I don't propose to ask for a cent for my work in helping the receivers.

"I have never spent money in politics. In no campaign have I paid more than my assessment, \$600 on the \$6,000 salary of Mayor. Sometimes I have not paid that much in cash, when the committee has allowed me a certain amount for the use of my tents. We have never been in debt at the end of a campaigning but once. When I gave up active business affairs, I did it because the requirements of my work did not square with my principles.

"I suppose I could have taken up a life of ease when I retired had I wished. I was welcome at the clubs, fast horses, yachts and other amusements were open to me. For me, though, happiness lay in another direction.

"My only recreation has been automobile driving. I'd like to keep one of my automobiles, but I'm afraid I can't.

"Back in my prosperous days, I gave the home on Euclid avenue to my wife. It is hers yet, and she will own it still even though we can't afford to live in it."

Mr. Johnson continued: "I don't feel discouraged. I'm a free man and that means a great deal to me, and I have my friends, too.

"Don't you suppose it will be worth something to me to have my friends say that I entered the Mayor's office rich and left it poor. The realization of what all that means is worth more to me than the money I've lost.

"I'm going to keep on just as I've started. I'm going to be a candidate for Mayor when this term is over."

The Municipal Traction Company, of which Mayor Johnson was treasurer, passed into the hands of receivers in the federal court several days ago. Following this came the transfer to two local banks of the deposit savings and trust company, of which the Mayor was president. It is said this action was precipitated by the threats of Mr. Johnson's individual creditors to file suits to obtain payment on notes endorsed by the Mayor.

It is said Mr. Johnson has recently lost approximately \$400,000 in connection with the interests at Loraine, Ohio.

Rexall
"93" HAIR TONIC

Our faith in the superior remedial qualities of Rexall "93" Hair Tonic is so strong that we promise to return your money—without question or quibble—if it does not do what we claim it will.

Because it contains Resorcin, Beta Naphthol, Pilocarpin, Borax, Glycerin and Alcohol in perfect combination, Rexall "93" Hair Tonic provides the softening, cleansing, antiseptic, germicidal, stimulating and nourishing properties, so desirable and necessary for the successful treatment of scalp and hair troubles.

If used according to directions for a reasonable length of time, we are absolutely positive that it will thoroughly cleanse the scalp and hair, relieve irritation, eradicate dandruff, stimulate the hair follicles and papilla, revitalize and nourish the hair roots, stop falling hair, prevent baldness, promote hair growth and make the hair naturally soft and silky.

You must realize that we would not dare back up our claims with such a liberal offer unless we were positive that we can substantiate our statements in every particular, and the most skeptical person should at least be willing to try Rexall "93" Hair Tonic at our risk.

BIG TOBACCO DEAL.

It involves 90,000,000 Pounds and \$14,000,000.

Louisville, Nov. 19.—The big deal between the American Tobacco company and the Burley Tobacco society for the 1906 and part of the 1907 crops of tobacco, which has been hanging fire for several weeks, was closed here late today. The price agreed on in the transaction, which was said to be the largest ever put through, is an average of 20 1-2c for the 1906 crop and 17c for the 1907 crop per pound.

The deal involves 90,000,000 pounds of tobacco held in the pool by the Burley tobacco society and an outlay of something like fourteen million dollars on the part of the American Tobacco company, practically all of this money being placed in circulation at once in central Kentucky.

"WILL TAMMANY EXPLAIN ITSELF?"

—Brian's Commoner.

DEFEATED CANDIDATE DEMANDS TO KNOW REASON FOR FLUNK IN NEW YORK CITY.

Lincoln Nat Nov 20.—Declaring that Tammany has either become impotent or did not work for the success of the democratic ticket in the late campaign W J Bryan in the forthcoming issue of his Commoner says there must be something radically wrong in the organization and calls for an explanation from the men who control the big political organization of New York City. The Commoner article in part is

If Tammany did the best it could and could not carry the city of

New York for the democratic ticket several questions arise

- 1 Was it the fault of the candidate?
- 2 Was it the fault of the platform?
- 3 Was it the fault of Tammany?
- 4 Is there a New York Democracy outside of Tammany?

If Tammany did its best then either Tammany could not bring Tammany to support the ticket or there is a democracy outside of Tammany that thwarts Tammany's efforts when Tammany does its best. And if there is a democracy outside of Tammany that must be reckoned with is it not time for that democracy to organize itself and make itself known so that the national democracy will have something to co-operate with? It will be interesting to democrats outside to know how the situation is to be remedied.

Will Tammany explain?

"HEALTH SECRET" (CARE OF STOMACH) —ROCKEFELLER.

New York Nov 20.—When I was a young man I used to work day and night but I never forgot that I had a stomach. You can work long hours if you are careful about what you eat. I was always careful about what I put into my stomach and to day I have cause to be very grateful for it. I never felt in better health than today as a result of rigidly adhering to a policy of a careful diet when I was a boy. I advise any one who wants to keep his health to do the same. Then when you young men get to be 70 years old you will be able to keep up your work. I never felt better in my life than I do now. For the last twenty years I have kept out of doors as much as possible and to that practice coupled with a careful diet I attribute my excellent health. I advise you young men to take good care of your stomach.

That was the explanation given today by John D Rockefeller the richest man in the world for his mental and physical vigor after a hard business life of more than forty years. He had just stepped from the witness stand at the noon recess at the oil inquiry when he was asked if he was not tired by his ordeal. He said that he was not tired and he did not look as if he were. He believed that his care of his stomach during his whole youth and in fact during his whole life accounted for his ability to go through such an examination without tiring. He made no comment on the stories that have been repeatedly published to the effect that his stomach was so nearly ruined that he had to live on crackers and milk nor did any one ask him about them. The fact that the examination is not worrying him was proved very clearly when he walked to the custom house with his lawyers for the morning session. To the surprise of many of those who stared at him he whistled like a schoolboy.

Ada is to have a sewer pipe and pottery manufacture.

Ada's asphalt is pronounced as fine as any in the southwest.

Amusement in moderation is not out of place. Some diversion is occasionally necessary to drive worries away.

Hon. W. J. Bryan will carry to Mexico with him, the heartfelt wishes of millions of his countrymen, that he may be restored to his usual good health and have a pleasant sojourn.

Ada still forges to the front as a cotton market. It pays the highest prices the buyers can afford, and the business houses carry bargains for the people and especially those who advertise.

The democracy of Oklahoma will get together and its record of achievement before the expiration of its present incumbency, will be better understood and had time to more thoroughly materialize.

The practical program of the county judge and the interior department looking to the early ownership of a great many farms in Pontotoc county by the actual farmer guarantees prosperity throughout the county another year.

The material development of city or county is of first consideration. Good farms, good roads, good school houses, good churches, comfortable and attractive homes—these are the inducements to the prospector either as homeseeker or for investment. Pontotoc county and Ada are coming to the front along these lines.

Ada is attracting the attention of the prospectors who are coming to Oklahoma in large numbers. Many of them make it a point to include Ada in their itinerary, and when they arrive, the general signs of public improvements, the voting of bonds for further work along this line, and evidences of prosperity, favorably impresses them.

When Mayor Dick, of Ardmore, told the council the other night that he stood for the issuance of bonds for any sensible purpose that would build up the city, the applause that came from the audience convinced timid aldermen that it was time to heed the popular demand to do something.—Shawnee Herald

It is the same demand anywhere in this new country, in order to get necessary improvements and public conveniences. Ada has such a mayor and council, and when its work is completed, they will have something substantial to show for their labors.

ABOUT ADVERTISING—NO. 7

The Cannon That Modernized Japan

By Herbert Kaufman.

Business is no longer a man to man contact, in which the merchant and the patron establish a *personal* bond, any more than battle is a hand-to-hand grapple, where bone and muscle and sinew decide the outcome. *Trade* as well as *war* has changed in its aspect—*both are now fought at long range.*

Just as a present day army of heroes would have no opportunity to display the *individual* valor of its members, just so a merchant who counts upon his personal acquaintanceship for success is a relic of the past—a *business dodo.*

Japan changed her policy of exclusion to foreigners after a fleet of warships battered down the Satsuma fortifications. The Samurai, who had hitherto considered their blades and bows good enough, discovered that one cannon was mightier than all the swords in creation *if they could not get near enough to use them.* Japan profited by the lesson. She did not wait until further ramparts were battered to pieces, but was satisfied with her *one* experience and proceeded to modernize her methods.

The merchant who doesn't advertise is pretty much in the same position as that in which Japan stood when her eyes were opened to the fact that *times had changed.* The long range publicity of a competitor will as surely destroy your business as the cannon of the foreigners crumbled the walls of Satsuma. Unless you take the lesson to heart, unless you *realize* the importance of advertising, not only as the means of *extending* your business but for *defending* it as well, you must be prepared to face the consequences of a folly as great as that of a duelist who expects to survive in a contest in which his *adversary* bears a *sword twice the length of his own.*

Don't think that it's *too late* to begin because there are so many stores which have had the advantage of years of cumulative advertising. The city is growing. It will grow even more next year. It needs *increased trading facilities* just as it's hungry for new neighborhoods.

But it will never again support neighborhood stores. Newspaper advertising has eliminated the strength of being *locally prominent*, and five cent street car fares have cut out the advantage of being "around the corner." A store five miles away can reach out through the columns of the daily newspaper and draw your next door neighbor to its aisles, while you sit by and see the people on your own block enticed away without your being able to retaliate or supply *new* customers to take their place.

It is not a question of your ability to *stand the cost* of advertising but of being able to *survive without it.* The thing you have to consider is not only an *extension* of your business but holding *what you already have.*

Advertising is an *investment*, the *cost* of which is in the same proportion to its *returns* as *seeds* are to the *harvest.* And it is just as preposterous for you to consider publicity as an expense as it would be for a farmer to hesitate over purchasing a *fertilizer* if he discovered that he could *profitably* increase his crops by *employing* it.

WOULD GO TO JAIL

So Says John Mitchell in American Federation Meeting.

Denver, Nov. 19.—The entire session of the American Federation of Labor convention today was given over to consideration of the report

of the committee on the president's report. Two sections caused a prolonged debate and a vote was reached on only one—that referring to "litigation harassing labor." The report of the committee recommending that injunctions be disregarded, was defeated on roll call; 11:272 to 3,578, and a modification of the report, along the line of Gompers' report was adopted.

The rest of the session was taken up in discussing the section of the report referring to the political action of the federation leaders.

In this section the committee criticized Daniel J. Keefe for not acting with the rest of the executive council.

John Mitchell at the afternoon session, in discussing an amendment to the committee report, said in part:

"Within a few days the court will decide whether our president, secretary and myself shall go to jail. I do not want to go to jail. But I shall accept that judgment and I shall pay no fine."

This declaration brought cheers from the delegates.

THE MAN WHO CAUSED OFFICER TO SEARCH HOME

WILLIAM JOHNSON KILLS OSCAR JONES ON TEUTMSEH STREET.

DEPUTY FINDS LIQUOR THERE

JOHNSON'S WIFE TECHNICALLY ARRESTED—HUSBAND WAS AFTER REVENGE.

Shawnee, Okla., Nov. 20.—Enraged because his house had been searched for liquor at the instance of Oscar ("Red") Jones, during his absence, William Johnson, at 5 o'clock this afternoon, in front of the Nichols furniture store in Tecumseh, shot and killed Jones and then surrendered to the authorities. Both men reside in Tecumseh.

White Johnson was in the country hunting this afternoon Jones went to the former's home and demanded that Mrs. Johnson give him some liquor. Upon her refusal Jones went to the county court and demanded that the house be searched. Deputy Sheriff King, armed with a search warrant, went to the Johnson residence and confiscated 12 gallons of whiskey and technically placed Mrs. Johnson under arrest.

When Johnson returned and learned what had happened he started in search of Jones, whom he found standing in front of the furniture store.

"There comes Bill Johnson; I guess he's after me," said Jones to a companion, and before he could escape Johnson opened fire. Jones fell, wounded in the left jaw by the first shot. A second smashed a plate glass window and a third entered the side of Jones. He expired in about 30 minutes.

Charges of burglary and bootlegging were pending against Jones in the country court.

GOVERNOR'S PROCLAMATION.

Will Today Declare That Agency Measure No Longer a Statute.

Guthrie, Okla., Nov. 20.—Developments are looked for tomorrow in the state agency problem. It is expected that Secretary Linn of the State Election Board will certify the returns on the five state questions, if necessary, without the two counties lacking as the vote could not effect the result.

Governor Haskell will directly issue his proclamation declaring the dispensaries repealed and Attorneys Devereux and Asp. within 20 minutes after the proclamation is issued, will file suit in the district court seeking on behalf of the Alexander Drug Company of Oklahoma City, to prevent the elimination of the agency, on the ground that the election had no result, because an emergency measure could not be submitted by the referendum.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

W. Y. Littlefield, living on W. 16th street, Ada, Okla., says: "I procured Doan's Kidney Pills at G. M. Ramsey's drug store and found most prompt and genuine relief from an aching through the small of my back that had caused me much misery for a long time. Doan's Kidney Pills not only relieved the distressing symptoms of kidney disorder and corrected that too frequent action of the kidney secretions but also caused the burning sensation that had accompanied the passages of the secretions to completely disappear. I am only too glad to recommend Doan's Kidney Pills to other sufferers of kidney complaint as they proved of more benefit to me than any remedy I had previously used."

TOM JOHNSON FAILS

HE IS NOT DESPONDENT BUT STILL HAS THE FIGHTING SPIRIT.

WILL START OVER AGAIN

He Gives Up Mansion and Motor Cars and Lake Cottage and Rides on Street Cars.

Tom Johnson heard to follow 1 Events in Career of Tom Johnson. Born at Georgetown Ky. July 18, 1854. Educated in Indiana where he spent his boyhood. Clerk in street railway office Louisville Ky. 1869-70. Bought street railway in Indianapolis 1891, acquiring traction interests in Cleveland, Detroit and Brooklyn. Member of congress from 1891 to 1895 (democrat). Prominent advocate of single tax theories of Henry George. First elected Mayor of Cleveland April 1, 1901.

Cleveland, Ohio, Nov. 20.—Tom Johnson, who for years has been credited with the possession of a very large fortune, today announced that he had lost everything and would be compelled to give up his beautiful home on Euclid avenue and move into smaller and less expensive quarters. The Mayor also stated that he would give up his automobiles and other luxuries because he could no longer afford to keep them.

His fortune was wrecked, the Mayor declared by his devotion to the affairs of the estate of his dead brother Albert, who was heavily interested in the traction properties in the East.

After Albert's death a question was put up to him whether he should resign his office as Mayor and take up the management of Albert's estate.

Fought for Ideals. I decided that I would not enter the fight in this city with certain ideals before me.

waited to fight privilege and special interest and I had already decided to give up working for dollars. So I concluded to stay right here and do what I could to help my brother's children at long distance.

Why did I choose the course I did? I'll tell you. It's not because I'm a philanthropist for I'm not. I acted from a purely selfish motive. I wanted happiness and nothing else when I closed up my brother's affairs and took up civic activity.

Enjoyed Civic Career. And I've been happy too. The last seven years have been the best of my life, leaving out of consideration the loss of my brother.

Going Back to Cottage. I am going to be happy yet too. We may have to go back to a cottage but that's the way we started and we can look upon life just as joyfully there as we did in the big house on Euclid avenue. They tell me my enemies are planning to bring financial trouble on me. I've been expecting it. There's one mistake I have not made—that of failing to foresee the efforts of those who would like to destroy me if the opportunity presented.

My enemies are capable of doing that. One may expect nothing else from special privileges. However, I realize that any other set of men in the same circumstances would act the same.

Plenty of "Fight" Left. Let them do what they may. Let them make any sort of attack upon me that they choose with what ever success and they will find me with a thousand fights left in me.

I'll never give up. I'm well and strong and confident and they will always find me at the front. If I had been a coward if I had run away from this fight for the people of Cleveland—I could have saved my fortune and built it up. But I had chosen my course and I did not have my mind for altering it.

Money Does Not Tempt Him. The pursuit of more dollars does not interest me. I suppose I could go down in Wall Street now and make some more. I've bought and sold with E. H. Harriman and I suppose I could go and do it again.

but I am not going to do anything of the sort.

I don't want you to misunderstand what I have been working for as Mayor. I have not been laboring with the expectation of being rewarded by the gratitude of the people. One can not count on that. It is the pleasure that in doing work that has kept me in the fight.

I have never made a single penny out of the street railways since I became Mayor. Nobody else has worked as hard as I and I have not drawn a cent of pay from the Municipal Traction Company as treasurer. I don't propose to ask for a cent for my work in helping the receivers.

I have never spent money in politics. In no campaign have I paid more than my assessment \$600 on the \$6,000 salary of Mayor. Sometimes I have not paid that much in cash when the committee has allowed me a certain amount for the use of my tents. We have never been in debt at the end of a campaigning but once. When I give up active business affairs I did it because the requirements of my work did not square with my principles.

I suppose I could have taken up a life of ease when I retired had I wished. I was welcome at the clubs, fast houses, yachts, and other allurements were open to me. For me though happiness lay in another direction.

My only recreation has been automobile driving. I'd like to keep one of my automobiles but I'm afraid I can't.

Back in my prosperous days I gave the home on Euclid avenue to my wife. It is hers yet and she will own it still even though we can't afford to live in it.

Mr. Johnson continued. I don't feel discouraged. I'm a free man and that means a great deal to me and I have my friends too.

Don't you suppose it will be worth something to me to have my friends say that I entered the Mayor's office rich and left it poor? The realization of what all that means is worth more to me than the money I've lost.

I'm going to keep on just as I've started. I'm going to be a candidate for Mayor when this term is over.

The Municipal Traction Company of which Mayor Johnson was treasurer passed into the hands of receivers in the federal court several days ago. Following this came the transfer to two local banks of the deposit savings and trust company of which the Mayor was president. It is said this action was precipitated by the threats of Mr. Johnson's individual creditors to file suits to obtain payment on notes endorsed by the Mayor.

It is said Mr. Johnson has recently lost approximately \$400,000 in connection with the interests at Loraine, Ohio.

Rexall
"93" HAIR TONIC

Our faith in the superior remedial qualities of Rexall "93" Hair Tonic is so strong that we promise to return your money—without question or quibble—if it does not do what we claim it will.

Because it contains Resorcin, Beta Naphthol, Pilocarpin, Borax, Glycerin and Alcohol in perfect combination, Rexall "93" Hair Tonic provides the softening, cleansing, antiseptic, germicidal, stimulating and nourishing properties, so desirable and necessary for the successful treatment of scalp and hair troubles.

If used according to directions for a reasonable length of time, we are absolutely positive that it will thoroughly cleanse the scalp and hair, relieve irritation, eradicate dandruff, stimulate the hair follicles and papilla, revitalize and nourish the hair roots, stop falling hair, prevent baldness, promote hair growth and make the hair naturally soft and silky.

You must realize that we would not dare back up our claims with such a liberal offer unless we were positive that we can substantiate our statements in every particular, and the most skeptical person should at least be willing to try Rexall "93" Hair Tonic at our risk.

BIG TOBACCO DEAL.

It involves 90,000,000 Pounds and \$14,000,000.

Louisville, Nov. 19.—The big deal between the American Tobacco company and the Burley Tobacco society for the 1906 and part of the 1907 crops of tobacco which has been hanging fire for several weeks was closed here late today. The price agreed on in the transaction which was said to be the largest ever put through is an average of 20 1/2c for the 1906 crop and 17c for the 1907 crop per pound.

The deal involves 90,000,000 pounds of tobacco held in the pool by the Burley tobacco society and an outlay of something like fourteen million dollars on the part of the American Tobacco company practically all of this money being placed in circulation at once in central Kentucky.
